Single-Origin Domestic Chocolates

Having the distinction of being harvested from the only U.S. state growing cacao crops, Hawaii's **Malie Kai Chocolates** (808/599-8600 or www.maliekai.com) offers both 55-percent cacao dark chocolate and a 38-percent cacao milk chocolate, single-origin bars. Grown on the Waialua Estate on Oahu's north shore, the dark chocolate has notes of dark currant while the milk chocolate has the smooth characteristics of its European counterparts. The bars are made by artisans in small batches.
